Cultural Activities

The Committee for Cultural Activities takes initiatives to organize various events of music, fine arts, theatre as well as encourage and prepare them to participate in such events organized by the University and other institutions at state, divisional and district level. This enhances the confidence level of students and helps develop their personality to groom them for good performance and career.

The hidden talents of students get ample exposure and remove their stage fear which is a common problem. When students get success in cultural activities, their aesthetic sense for various arts including music, fine arts, theatre events etc. are naturally enhanced. Along with better academic performance students can acquire the skills to live smooth and stress-free life.
