The screenshot displays a Zoom meeting interface. The main window shows a presentation slide titled "General Ethics" with the following text:

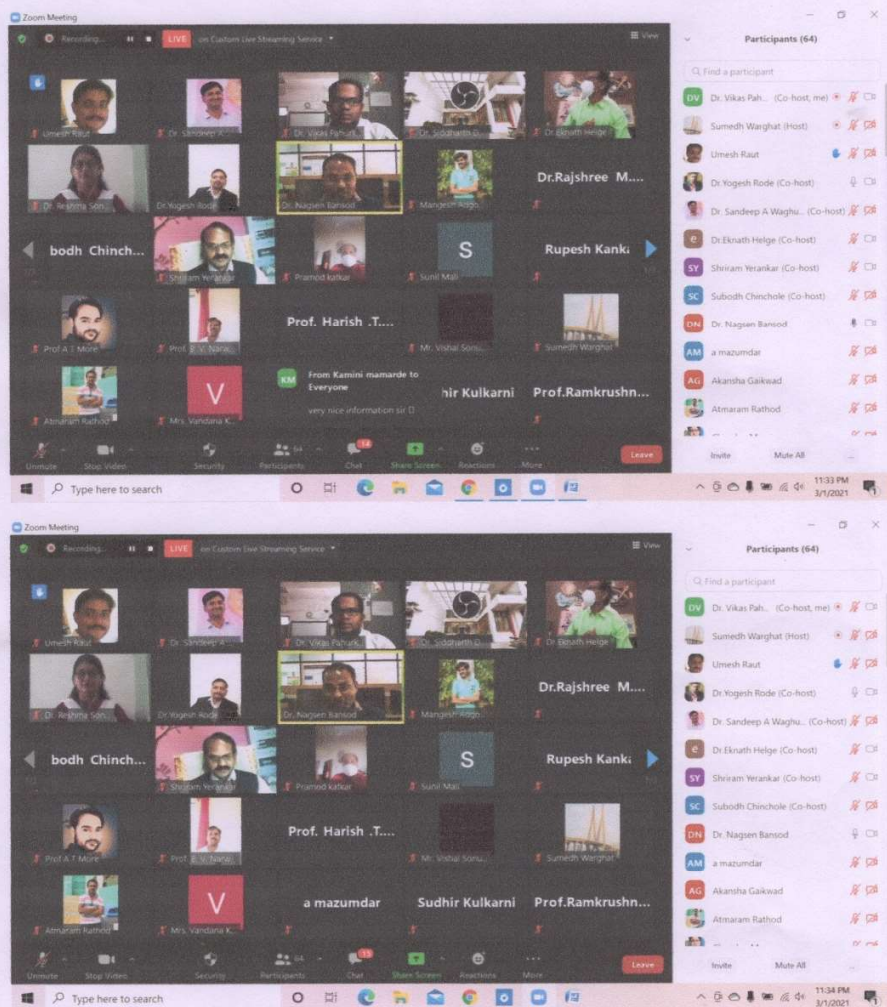

General Ethics

A researcher needs to take care of various other ethical issues at different stages of the research process as follow:

- As some topics are controversial in their nature, so it becomes the prime duty of the researcher to check whether the topic to be studied has innate ethical ramifications. Thus, before finalizing the topic, the ethical implications of the topic must be given a thought.
- Ethics play a paramount role in the studies involving human contacts. So, the effects of the research on subjects must be given due consideration. Harmful research should be avoided.

Below the slide, the video title "Intellectual Property Rights (IPR) & Research Ethics" is visible, along with a "9 watching now" indicator. The Zoom meeting controls at the bottom show a list of participants, including Dr. Vikas Pahurkar, Dr. Sandeep A. Wagh, and Dr. Eknath Helge. The Jijamata Mahavidyalaya logo and the signature of the Principal are also present.
